

Directions to assemble the Water Catcher

1. Cut out square below on the outside lines.
2. Place square on flat surface with the writing down and fold each corner to the center.
3. Turn over and fold each corner again to the center and crease all folds.
4. Fold square in half to make a rectangle-not triangle-and crease fold line.
5. Fold square in half the other way to make a rectangle, crease fold line, open up last two folds.
6. Place three fingers and thumb under "Water Catcher" flaps making 4 cones, close sides together.

To Play the game (two people required)

1. First person holds the Water Catcher and asks the other person to choose a word on a flap - spell the word while moving the catcher in each direction, have them pick a number from the numbers showing; count the number out.
2. Open the Catcher; choose one of the four numbers showing-ask the question for the number picked and ask the person to guess the answer. Open the flap for the answer. **For information: www.azwater.gov** (Drought Conservation)
